

VERTEX is a global AEC firm that offers Forensic Consulting, Design Engineering, Construction Contracting, and Environmental Services. Our reputation for excellence, both in terms of timely results and service quality, spans the globe. It has earned VERTEX the trust of a prestigious client-base that includes both private and public companies as well as government agencies, in virtually every line of business.

# Fire Investigation Services

Only highly experienced professionals can perform the complex tasks of uncovering the origin and cause of a fire or explosion. By evaluating the circumstances surrounding what happened and why, VERTEX is able to provide our clients with the technical expertise needed for them to determine coverage in a timely manner, reduce claim costs, combat fraud, and ultimately achieve closure with a solid, court defensible understanding of events and outcomes.

### **Fire Investigations**

- Origin & cause investigation
- Failure analysis
- Subrogation/litigation support
- Evidence collection & storage
- · Code analysis & research
- Crime scene investigation

## **Origin & Cause**

In an approach consistent with NFPA 921, our experts apply the highest level of professional competence in their investigative skills and techniques, evidence collection, chain of custody and reporting, providing our customers with solid and reliable determination of fire origin and cause that will withstand the challenges of litigation.

#### Failure Analysis

Through scientific failure analysis, we can determine whether the root cause of the fire was due to an electrical or mechanical component, human error, natural events, or arson.

# Subrogation/Litigation Support

VERTEX experts assist the litigator by having highly qualified professionals conduct site investigations and review all documents and reports prepared by other parties. The client receives valuable information regarding the completeness and accuracy of the other parties' opinions and conclusions.

#### **Full-Service Approach**

Teamed with VERTEX's existing services, we are able to evaluate the aftermath of a fire or explosion. Services include:

- Civil/structural engineering
- Damage assessment/cost to repair
- Reserve analysis
- Construction management
- Environmental remediation
- Indoor air quality
- Hazardous waste management
- Health & safety consulting

We are pleased to receive new assignments at: assignments@vertexeng.com.
