

**Expertise**

- Industrial Hygiene
- Environment of Care Consulting
- Environment of Care Risk Assessments
- Environmental Infection Control in Healthcare
- ICRA Training
- Construction in Healthcare Training
- USP 797 Sampling
- USP 800 Sampling
- Indoor Air Quality
- Construction Risk Assessment
- Mold
- Investigations & Remediation
- Domestic (Potable) Water System Sampling
- Silica Dust
- Lead in Water

**Archie Barrett, Jr | Technical Director of Healthcare Services**

**EMAIL** abarrett@vertexeng.com | **PHONE** 443.539.7757

**BIOGRAPHY**

Archie Barrett founded Compliance Environmental International (CEI) in 1993. Building upon his vast experiences gained from service in the United States Coast Guard, a health physics technician in the nuclear power industry and as an environmental consultant in private industry. Mr. Barrett established CEI to serve as a superior consulting firm that specialized in providing industrial hygiene and environmental consulting/engineering services to healthcare facilities. In 2019 The Vertex Companies, Inc. acquired CEI.

As Technical Director of Healthcare Services of Vertex, Mr. Barrett provides technical guidance and management of Healthcare Industrial Hygiene staff, trains and mentors Healthcare Industrial Hygiene staff and performs business development with a focus within the Healthcare market. He is an active member in the Environmental Information Association, and a current Certification Board member for the American Council for Accredited Certification. Mr. Barrett is a Council Certified Indoor Environmental Consultant, a Council Certified Microbial Consultant, and a Council Certified Microbial Remediation Supervisor. He has over 30 years of experience in the environmental health and safety field.

---
